Bison Issues Overview, September 2019

National Bison Day Resolution

U.S. Sens. John Hoeven (R-ND) and Martin Heinrich (D-NM), are sponsoring a resolution to designate November 2, 2019 as National Bison Day in the United States. The National Bison Association requests that all Senators support this resolution.

Background

Since 2012, the United States Senate each year has designated the first Saturday in November as National Bison Day. This annual resolution is required because Senate rules do not allow for resolutions to establish any standing "National Day" on a perpetual basis.

This resolution has the full support of the National Bison Association, the Wildlife Conservation Society and the InterTribal Buffalo Council; the three organizations that championed the enactment of legislation in 2016 designating bison as the National Mammal of the United States.

RESOLUTION

Designating November 2, 2019, as National Bison Day.

Whereas on May 9, 2016, the North American bison was adopted as the national mammal of the United States;

Whereas bison are considered a historical symbol of the United States;

Whereas bison were integrally linked with the economic and spiritual lives of many Indian Tribes through trade and sacred ceremonies;

Whereas there are more than 60 Indian Tribes participating in the InterTribal Buffalo Council, which is a Tribal organization incorporated pursuant to section 17 of the Act of June 18, 1934 (commonly known as the "Indian Reorganization Act") (25 U.S.C. 5124);

Whereas numerous members of Indian Tribes are involved in bison restoration on Tribal land;

Whereas members of Indian Tribes have a combined herd of bison on more than 1,000,000 acres of Tribal land;

Whereas bison can play an important role in improving the types of grasses found in landscapes to the benefit of grasslands;

Whereas bison hold significant economic value for private producers and rural communities;

Whereas, as of 2017, the Department of Agriculture estimates that 182,780 head of bison were under the stewardship of private producers, creating jobs and contributing to the food security of the United States by providing a sustainable and healthy meat source;

Whereas a bison has been depicted on the official seal of the Department of the Interior since 1912;

Whereas a bison is portrayed on 2 State flags;

Whereas the bison has been adopted by 3 States as the official mammal or animal of those States;

Whereas the buffalo nickel played an important role in modernizing the currency of the United States;

Whereas several sports teams have the bison as a mascot, which highlights the iconic significance of bison in the United States;

Whereas a small group of ranchers helped save bison from extinction in the late 1800s by gathering the remaining bison of the diminished herds;

Whereas on December 8, 1905, William Hornaday, Theodore Roosevelt, and others formed the American Bison Society in response to the near extinction of bison in the United States;

Whereas on October 11, 1907, the American Bison Society sent 15 captive-bred bison from the New York Zoological Park, now known as the “Bronx Zoo”, to the first big game refuge in the United States, now known as the “Wichita Mountains Wildlife Refuge”;

Whereas, in 2005, the American Bison Society was reestablished, bringing together bison ranchers, managers from Indian Tribes, Federal and State agencies, conservation organizations, and natural and social scientists from the United States, Canada, and Mexico to create a vision for the North American bison in the 21st century;

Whereas there are bison herds in national wildlife refuges, national parks, and national forests, and other Federal lands;

Whereas there are bison in State-managed herds across 11 States;

Whereas private, public, and Tribal bison leaders are working together to continue bison restoration throughout North America;

Whereas there is a growing effort to celebrate and officially recognize the historical, cultural, and economic significance of the North American bison to the heritage of the United States; and

Whereas members of Indian Tribes, bison producers, conservationists, sportsmen, educators, and other public and private partners have celebrated the annual National Bison Day since 2012 and are committed to continuing this tradition annually on the first Saturday of November:

Now, therefore, be it Resolved, That the Senate—

(1) designates November 2, 2019, the first Saturday of November, as National Bison Day; and

(2) encourages the people of the United States to observe the day with appropriate ceremonies and activities.
