

National Bison Association's 2025 Gold Trophy Show & Sale - Rules and Regulations

Auction on Saturday, January 25 at 10:00 a.m. National Western Stock Show – Denver, CO

ENTRY DEADLINE: December 20, 2024. Entries for Live Animals must be paid online – www.bisoncentral.com/gold-trophy-show-and-sale - or mailed with payment to the NBA office and postmarked by this date. No exceptions. Consignments are accepted on a first come, first serve basis upon full payment of entry fees.

ELIGIBILITY: Consignors must be a current Life, Active, Supporter or Youth member of the National Bison Association to enter animals in the Gold Trophy Show and Sale (GTSS).

ENTRY LIMITS: Consignors are limited to two entries per class, except for the single calf classes, where each consignor may have up to three entries per class. Pens are limited to one entry per consignor. There is a class limit of 20 yearling bulls and 14 two-year old bulls in which one can consign two animals per class, but the second animal will be put on a waiting list until the consignment deadline, and then added until the class is full on a first come first serve basis. Entries may be reduced at the discretion of the GTSS Committee Chairperson(s) if class sizes become an issue due to pen space. The NBA reserves the right to cancel any class with less than three entries after the entry deadline. If a class is cancelled or entry numbers are reduced, affected consignors will have entry fees refunded.

ENTRY FEES: All fees, in US funds, must be paid with the entry. Fees are not refundable, unless the animal is not allowed in the show due to space limitations or class cancellations.

<u>Single Animal Entries, per head</u>	<u>\$110</u>
<u>Pen of Three Yearling Heifers</u>	<u>\$200</u>
<u>Pen of Five Heifer Calves</u>	<u>\$300</u>

COMMISSION: A 10% commission is taken from the animal sale price, with 9% going to the NBA's general account and 1% contributed to the NBA's Growth Fund program to support promotional efforts in the bison industry.

EAR TAGS: GTSS ear tags will be mailed as soon as possible after consignments are received. They are to be placed in the animal's left ear. **All other ear tags must be removed**, except permanent metal ID tags, EID or RFID tags, NABR (North American Bison Registry) tags, Source Verification (SVP) tags and trichomoniasis tags. One show tag plus any government issued tags.

LOAD IN AND OUT: The loading facilities are located on National Western Stock Show in Denver, CO. Visit bisoncentral.com/gold-trophy-show-and-sale/ for updates on directions. Unloading times are Tuesday, January 21 from 12:00 noon to 5:00 p.m. and Wednesday, January 22 from 8:00 a.m. to 5:00 p.m. Load out times are from the end of the sale until dark on Saturday, January 25 and from 7:30 a.m. to 12:00 noon on Sunday, January 26. If delivering animals with a cattle pot style trailer and need a chute to unload, please contact Karen Conley at (605) 381-3738 so arrangements can be made. If you will be unloading in this manner, please be aware that one or more animal owners must be present during unloading in case of any issues. No animals will be loaded out into these types of trailers due to the risk of accidents during loading. Ground load semis are fine for both unloading and loading out of animals in the yards.

IF YOU ENCOUNTER DELAYS, PLEASE CONTACT YARD SUPERVISOR JOHN GRAVES AT 303-887-9677.

HEALTH CERTIFICATES: All single animal entries require a separate health certificate. **Pen consignments should have all animals in the pen listed on one certificate.** GTSS tag numbers MUST be listed on the health certificate and should correlate with the animal's permanent ID. When you deliver your animals, please bring each original certificate(s) plus one copy of each certificate and ALL your original testing paperwork. If possible, email karen@bisoncentral.com a copy of your health certificates before you arrive to expedite offloading and processing.

Each consignment must meet the following health requirements:
All animals:

- Negative Brucellosis test on all animals after 12/27/24, with the USDA metal or USDA 840 RFID ear tag in place.

- ALL females from the US must be Official Calhhood Vaccinates (OCV) with a legible vaccination tattoo and, if they are over 24 months of age, they must have a negative Brucellosis blood test within 30 days of sale date. Canadian females of any age can come to Denver and sell if they have a negative test within 30 days, however, it will be announced at the sale that this is a non-OCV female and cannot go to certain states.
- Negative TB test (caudal fold) on all animals after 11/27/24.
- Negative Bovine Viral Diarrhea (BVD) PI test prior to arrival. Acceptable tests include immunohistochemistry (IHC), antigen-capture ELISA (ac-ELISA), polymerase chain reaction (PCR) and virus isolation (VI). Please note: BVD serology or titers are not accepted.
- Injectable or pour-on Ivermectin or Ivermectin-like wormer, such as Long Range, on all animals on or after 1/15/25.

Specific to Bulls:

- Negative trichomoniasis PCR T. foetus test on all male animals 12 months and older after 12/27/24.
- Breeding Bulls Verification: Your vet must verify your bull's semen test on all males that are not in a calf class on the NBA's Semen Evaluation form after October 27, 2024. Required values: Morphology score 70% or better and Motility score 30% or better.

Specific to Females:

- Yearling heifers – Females less than 24 months old shall not be pregnant, must be “open”.
- Bred Females - Females over 24 months of age shall be at least 90 days pregnant.
- Pregnancy Test Verification: Your vet must verify a positive pregnancy test on all two-year-old females and that yearling heifers are open and noted on health certificate. Palpation, ultrasound or BioTracking are all acceptable pregnancy tests.

AGE VERIFICATION (REQUIRED FOR YEARLING & OLDER ANIMALS)

Prior to yearling or older animals' arrival, the consignor's veterinarian will verify age utilizing choice of the following options. Veterinarian will note on animal's health certificate the age, method used, and permanent ID number if the permanent ID tag option is used.

Option # 1

Mouthing: All animals in yearling and older classes can be mouthed after November 1, 2024 by the consignor's veterinarian and WILL BE AGE VERIFIED AS PER THE FALL TOOTH CHART (Refer to Mouthing Chart). Animal ages will be determined by looking at the adult incisors.

Option # 2

Previously Installed Permanent ID Tag (This option requires approximately 8 months advance planning.)

The veterinarian and consignor can elect to utilize the following permanent tags as proof of age.

1. Official calhhood vaccination (OCV-Brucellosis) tag placed in the heifer/cow's ear as a calf prior to 12 months of age.
2. Official metal test tag placed in the animals' ear by a veterinarian –or EID/RFID/NABR tags placed in animals' ear by veterinarian or others. While utilizing the mouthing chart and in compliance with the specified dates noted on the mouthing chart the veterinarian will determine age of an animal and record animals permanent tag number. Note: The installed permanent tags utilized under this option must be inspected and recorded by the veterinarian within specified time frames noted on mouthing chart and no later than May 1st of the year the animal is turning two years old. The consignor's veterinarian may use any of the above tags to establish, record and track what year of birth the animal is. This assumes that the animal was born during the normal birth period of approximately April through July.

SPECIES OR SUBSPECIES CLAIMS: If you are including any language that identifies your animals as a specific bison subspecies, plains or woods, or a percentage thereof, they must be tested using the Neogen bison subspecies composition test with the resulting score provided to the Karen Conley, karen@bisoncentral.com, and reported in the catalog. Test results must be provided by January 1, 2025 for inclusion in the sale catalog.

Animals will not be allowed to unload if the health certificate requirements are not met.

OPTIONAL TESTS: ANAPLASMOSIS and/or BLUETONGUE tests, while not required at the 2025 GTSS, are required for entry into some states. If tested, the test must be negative and recorded on the Health Certificate after 12/27/24.

COMMON ERRORS - The most common omissions from the health certificate include:

- Failure to record “negative” in the proper column under the test.
- Not recording full tattoo properly.
- Failure to include the date tests were run.
- Not stating “Injectable Ivermectin (Ivomec) or Injectable Ivermectin Plus” and date administered.
- Lack of Consignors/Owner’s signature.

WEIGHT RECOMMENDATIONS FOR LIVE ANIMAL CLASSES

While there are no minimum weight requirements for the GTSS, the guidelines below are meant to assist producers in selecting quality breeding stock that will allow them to be competitive in both the show and sale ring. Weights shown are minimum weight guidelines for animals entering each class.

Two Year Old Bulls – 1,200 pounds

Two Year Old Bred Heifer – 900 pounds

Yearling Bulls – 900 pounds

Bull Calves – 450 pounds

Heifer Calves – 400 pounds

JUDGING GUIDELINES FOR THE LIVE ANIMAL SHOW: While the GTSS Consignor Committee does not set forth any guidelines for live animal judges to follow, consignors should be aware that animals are judged with the following in mind: structural soundness and good confirmation; soundness and ability to travel without any lameness; overall health of the animal; good fleshing without being overly conditioned and carrying too much weight; overall appearance of the animal. Additionally, for the Pen of 5 Heifer Calves and Pen of 3 Yearling Heifers classes, please note that uniformity of the group of heifers will not be a main judging point but could be used to break a tie between one or more pens being considered for an award.

SIFTING OF ANIMALS

Animals will normally be sifted only because of not meeting the previously stated GTSS requirements. However, the GTSS-Consignor Committee Chairman, reserves the right, in accordance with National Western Stock Show General Rules and Regulations, to appoint a committee, if necessary, that shall decide if any additional entries lack the necessary merit to be included in the Gold Trophy Show & Sale. The GTSS-Consignor Committee Chairman’s decision will be final. Bleeding horns upon arrival will be evaluated by the GTSS Consignor Committee Chairman and the horn(s) may be removed at that time. If, on arrival or during its stay in the yards, an animal appears to be unhealthy, the GTSS Consignor Committee Chairman reserves the right to have that animal examined by a licensed veterinarian. If an animal is determined to be unhealthy by the Veterinarian, that animal shall be removed from the Show & Sale. Costs of examination shall be borne by the NBA if the animal is deemed healthy or borne by the consignor if the animal is deemed unhealthy. If an animal is rejected from the Show and Sale, at the consignor, owner, or agent's discretion, that animal can be penned in a separate, non-judged area at a cost to the consignor for a flat fee of \$150. These animals will not sell at the GTSS sale.

SCRATCHING OF ANIMALS

If you scratch any of your entries for any reason, please notify Karen at karen@bisoncentral.com immediately so we can keep those animals out of the catalog if possible and to assist the yard crew with penning. In case of classes with a cap on them, notifying the NBA of any scratches may open room for another consignor to bring animals.

LIABILITY: The consignor assumes all responsibilities regarding the terms and conditions. The NBA acts only as an agent and assumes no responsibility in the event of injury or death to any animal or for any discrepancy between the buyer and the consignor.

CONSIGNOR’S MEETING: A consignor’s meeting will be held on Friday, January 24 at 7:30 a.m. at the Omni Hotel. All consignors are encouraged to attend and bring forth any concerns and suggestions to help better the GTSS.

AWARDS: For classes with up to 9 entries, first through third place will be awarded. For classes with 10-14 entries, first through fourth place will be awarded. For classes with 15 or more entries, first through fifth places will be awarded. Judges may award Honorable Mentions in each class at their discretion. An overall grand and reserve champion male and female will be selected from the winners of each class.

Upon completion of the judging and after the Grand and Reserve Grand winners have been selected, the committee will use the following criteria to determine the Producer of the Year award.

1) Points and Qualifying Classes

Points will be awarded as follows for all GTSS classes:

1-9 class entries: First - 3; Second - 2; Third - 1

10 – 14 class entries – First 4; Second – 3; Third – 2; Fourth – 1

15 or more class entries - First 5; Second – 4; Third – 3; Fourth – 2; Fifth – 1

Grand Champion - 2; Reserve Grand Champion -1

No points will be awarded for Honorable Mentions. Points will be awarded to each trophy winning entry and the consignor with the most points will be awarded the Producer of the Year.

The committee will use the following criteria to determine the Rookie of the Year award.

Eligibility: Consignors are eligible for either Rookie award only if the individual or farm/ranch has never entered animals in the Gold Trophy event. Only those consignors who are first time entrants are eligible for this award.

1) **Points and Qualifying Classes**

Points will be awarded as outlined above for the Producer of the Year information. The first-time consignor in a respective category with the most points will be awarded the Rookie of the Year.

All forms and detailed GTSS information are also available on the NBA's website at www.bisoncentral.com.
